protecting your structures

CRL Surveys

provides **professional**

and **technical services** for the **inspection** of

buildings and **structures** in the UK and around the world based

on over **65 years' experience**. **CRL Surveys** uses a range of **non-destructive**

and **intrusive testing techniques** backed up with **laboratory analysis** to identify the nature,

cause and extent of any deterioration. This information is then collated to provide a **comprehensive**

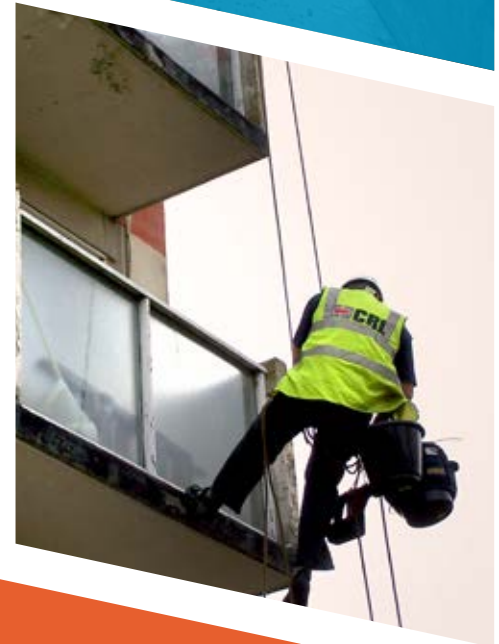

report with repair options and if required, **repair specifications, budget costs** and **bills of**

quantity. **CRL Surveys** provide a **professional service** which enables our **customers** to

maintain their **assets** with an **efficient long-term strategy** based

on **expert knowledge** of the cause and extent of

the deterioration.

CRL Surveys technical

reports are renowned for their **detail**

and **clarity**, describing the remedial options that best suit your

structure and your requirements. The reports clearly **detail the reasons** and context for the

options provided, the **methods** that should be employed and include comprehensive discussions comparing the

results with current industry standard guidance. The reports provide **honest, impartial advice** that is **tailored from**

our vast experience for your structural needs. Unique to the industry, and unlike most testing companies we can not

only identify the problem, but also advise on how to solve it based on **over 65 years' experience** in the **repair** of

concrete and other **structures**.

Enhanced Performance

prolonging the life of your structure

UKAS accreditation is critical to better regulation of the industry and **CRL Surveys** is one of the few **UK survey companies to hold UKAS accreditation** for its onsite services. UKAS accreditation **assures our customers** that the work is undertaken to an audited **standard** and demonstrates due diligence in the event of legal action. Most of our **clients** now **specify** UKAS accreditation for onsite services to select suitable inspection companies thus ensuring the same quality of service. **Our accreditation covers the top ten onsite procedures** normally undertaken to **assess concrete**. All **site samples are analysed at UKAS Accredited laboratories**. This ensures the work **complies with European Standards**, and other **recognised standards and guidelines** issued by the BS, ASTM, BRE and The Concrete Society.

The **Health & Safety** of our **employees** and **everyone** else affected by our activities is **fundamental to our business**. **CRL Surveys** believe our success is driven by our **commitment to safety and sustainability**. **CRL Surveys** is **experienced** in operating in a range of environments including **nuclear, marine**, clean and dirty **water processing plants**, working at **height** and in **confined spaces** using the latest access techniques. **CRL Surveys** constantly strive to **eliminate** or reduce health, environmental and carbon **risks** with improved PPE and procedures. We aim to create a safe, healthy and sustainable environment in which **no one**, including our planet, is **harmed**.
